Other Materials

- [FAQs](#)

Enterprise Security Solution (ESEC)

With the deployment of KEES 2.1, the PennDOT Enterprise Security Solution (ESEC) replaces paper-based KEES registration processes. In addition, PennDOT Business Partners can manage their access account for KEES and any other Commonwealth applications integrated with ESEC. Commonwealth employees and consultants with 'c-' user IDs will continue to manage their security accounts through established agency practices.

- [A Brief Introduction to ESEC](#)
